

PROFESSIONAL TILE CUTTER

Has 570 mm (22 1/2") stroke that will cut up to a 16" x 16" tile at 45°. Has 3 breakers: aluminum, thin and thick rubber. Carbide cutting wheel is 22 mm with bearings. Has 300 mm adjustable measuring gauge with angle guide adjustable to 60°. Lightweight aluminum alloy base, with heavy duty 20 mm hollow rails. Linear ball bearings and sliding swing-out tile supporter.

Cat. No. TCR-570, Size: 30" x 8" x 5" High, Wt 14 1/4 lb

DOUBLE SUCTION CUP RATED AT 80 KGS (175 LB)

A versatile tool useful for handling a variety of smooth surface nonporous items. Used most frequently for handling large ceramic tiles, marble, glass, solid surface blanks, laminate flooring, and sheet metal. Has two 118 mm (4 5/8") suction cups with very positive locking levers.

Cat. No. SCD-80, Length 14 1/2", Handle Section 4 1/4" x 1 1/8" diam.

SINGLE SUCTION CUP RATED AT 40 KGS (88 LB)

Uses are the same as Double Cup above. Single cup is 118 mm (4 5/8") in diameter with a very positive locking lever. Blue polycarbonate body with a heavy rubber pad.

Cat. No. SCS-40, Wt 11 oz

MINI SUCTION CUP RATED AT 12 KGS (26 LB)

Cup diameter is 55 mm (2 1/8") with a very positive locking lever. Very useful for setting and placing ceramic tiles and backsplashes. Also useful as a semipermanent nonmarking hanger on mirrors, tile walls, and other smooth surfaces.

Cat. No. SCM-12, Wt 7 oz

SKELETON STYLE CAULKING GUN

Designed for the standard 10.1 oz cartridge. Lightweight yet heavy duty. Has the preferred Hex Rod, and a Thumb Release that releases pressure to stop the flow. A Piercing Rod is provided to break the seal on a new cartridge or to clear a clogged nozzle. Available any quantity.

Cat. No. CG-110, Wt 1.25 lb, 12/ctn

FULL BODY CAULKING GUN

Designed for the standard 29 oz (quart) cartridge. It also has a built-in Nozzle Cutter and a Thumb Release that releases pressure to stop the flow. A Piercing Rod is provided to break the seal on a new cartridge or clear a clogged nozzle. Available any quantity.

Cat. No. CG-129, Wt 2.75 lb, 6/ctn

DISPOSABLE DUST MASKS

Inexpensive and disposable, the DM-223 dust masks help prevent non-toxic particles from entering your lungs and sinuses during woodworking operations such as sawing, sanding, and routing. They also provide protection from most dust-generating operations such as sweeping and dusting. The masks have an elastic headband and a metal noseband that can easily be formed to provide a close fit. They are porous enough for breathing yet fine enough to stop most nuisance dust particles. White color shows accumulated dusts. They are not recommended for toxic dusts or paint fumes and other volatiles. Packed 50/box, 12 boxes/ctn. Cat. No. DM-223, Box of 50, Wt 8 oz
