

EDGEBANDING TRIMMERS

DOUBLE EDGE EDGEWORKING TRIMMER Simultaneously trims both edges of most soft edgeworking materials. Duplicate blades on both sides will flush or bevel trim panels from 1/2" to 1 1/2" thick. Simply place trimmer on panel edge, squeeze the sides snugly together, then slide forward along panel edge. One side can be used alone as a single-sided trimmer. **PRACTICAL™** brand. Rounded corners for comfortable grip, pumpkin color is easy to find. (Not for high pressure laminates)

Cat. No. ET-100, Blister Packed for Display, Size 4" x 1 7/8" x 1 3/4", Wt 5 oz
 Cat. No. ET-100RP, Repl. Set of 6 Blades, Wt 1 oz

SINGLE-SIDED EDGE TRIMMER An easy-to-use edge trimmer that provides careful control in trimming. It trims PVC, ABS, polyester, and all other types of soft edgeworking material. It has a straight cutting blade for flush trimming and will cut in either direction. The long life, High Speed Steel cutter is replaceable.

Cat. No. ET-6, Length 3 5/16", Wt 3 oz Cat. No. ET-6RP, Repl. Blade, Wt 1 oz

EDGEWORKING EDGE TRIMMER Single edge trimmer flush trims around outside curved sections as well as straight edges. Trims most soft edgeworking materials. With a fixed edge guide, it is light weight and easy to use.

Cat. No. ET-7, Length 5 3/4", Wt 1 oz

VARIKANT EDGEWORKING EDGE TRIMMER Trims flush or any angle from 0° to 45°, forward and backward. Wing nut locks cutter at selected angle. Closeness of cut is adjustable with 4 mm hex key. It has a High Speed Steel blade that can be repositioned as much as 1" along its length to provide fresh cutting edge for exceptionally long blade life. A lifetime precision quality tool.

Cat. No. VK-41, Size 3 1/2"L, 2"W, 2"H, Wt 12 oz Cat. No. VK-41RP, Repl. Blade

RADZI FIXED-MODE EDGEWORKING EDGE TRIMMER Plastic edge guides are provided for 0°, 30°, and 45° trimming. Same blade as HSS VK-41RP blade above. Another lifetime precision quality tool.

Cat. No. RZ-42, Size 3 1/2"W, 2"L, 3"H, Wt 1lb

RADZI COMBI VENEER CUTTER This tool cuts all veneers up to 1 mm thick. The 0.2 mm thick blade cuts with, across, or diagonally to the grain. For left-hand operation, the edge guide can be mounted on other side. Comes with package of 10 spare blades.

Cat. No. RV-43, Size 5 1/2"L, 2"W, 4"H, Wt 1 lb Cat. No. RV-43RP, Pkg of 10 Repl. Blades

ALL METAL END TRIMMER Trims all types of pliable edgeworking material. A 1/4" thick steel blade and overall heavy-duty construction cuts even the heaviest types. Body is cast aluminum for light weight. An eccentric cam-stop adjusts closeness of cut, and it is locked in place by a lock nut. There are no breakable plastic parts, assuring a long trouble-free life. Packaged 2 per box.

Cat. No. EN-9, Size 7" x 6", Wt 22 oz Cat.No. EN-9RP, Repl. Blade

BAND-IT EDGE TRIMMER Trims wood veneer, melamine, PVC, and polyester edgeworking materials. Trims flush and cleanly, and in both directions. Blades are replaceable. Compact size. Blister package for pegboard display. 24/master carton.

Cat. No. BD-5, Edge Trimmer, Length 3", Wt 2 oz Cat. No. BD-5RP, Pkg of 5 Repl. Blades

PROFESSIONAL TILE CUTTER

Has 570 mm (22 1/2") stroke that will cut up to a 16" x 16" tile at 45°. Has 3 breakers: aluminum, thin and thick rubber. Carbide cutting wheel is 22 mm with bearings. Has 300 mm adjustable measuring gauge with angle guide adjustable to 60°. Lightweight aluminum alloy base, with heavy duty 20 mm hollow rails. Linear ball bearings and sliding swing-out tile supporter.

Cat. No. TCR-570, Size: 30" x 8" x 5" High, Wt 14 1/4 lb
